a. Follow up discussion on Environment and Climate Change Canada policy position received March 29, 2017.

Rebecca reviewed discussions with Margaret Mason regarding paths forward for the CBT. Margaret was hopeful that the CBT would receive more information from ECCC regarding the basis for their policy statement regarding the use of the Canada Fund to purchase or build a permanent home for the CBT. The Executive Committee had further suggested that the CBT follow up with a second request for the policy analysis and at the same time detail the CBT history and efforts to date on the Biosphere Centre, potentially including the Deputy Minister and local MP in the correspondence.

Kendall Woo noted that ECCC is well aware of the efforts the CBT has put forward in regards to the Biosphere Centre. Kendall noted that all messages to Ottawa have been positive in recent history and suggested that the CBT be very prepared for any questions that may come from Ottawa should we choose to pursue such correspondence. Kendall commented that the best option is to work together to find a solution.

The Board asked Kendall to attend the June meeting and to come in advance to tour the area and have some discussions to find a solution to create the Biosphere Centre.

Kendall and the Board agreed to have a brainstorming phone call the week of May 15th so that a more focused, productive discussion can occur at the June 8th meeting.
